Note: This table shows the deduction structure for each level upgrade. The values represent how much is withdrawn, required directs, bypass pin value, and cut-off limit for progressing to the next level.

- **Withdraw:** Minimum withdrawal amount needed at that level.
- **Directs:** Number of direct referrals required to unlock the next level.
- **Bypass Pin:** The pin value required to skip or fast-track a level.
- **Cut Off:** The maximum limit before an upgrade is triggered automatically.

Make sure to meet all the requirements at each level to continue progressing smoothly.
